
Description:

Infrared heaters deliver heat fast, exactly to the place where it is required without any air movement. They are suitable for dust-free drying of walls or paints and defrosting machinery or pipe lines. The XL9SR can also be used in factories, manufacturing facilities and warehouses to name but a few. The heater is placed at a safe distance and is pointed in the direction of the objects that are required to be heated. The heat created from burning the fuel is stored in a front facing ceramic plate and a fan at the rear converts this to hot air.

Product Code: DXL9S**Specification:**

- Power Supply: 110v 50Hz
-
- Heating Power: 29kw (99,300 Btu) 43kw (146,900Btu)
- Energy Consumption: 160w
- Tank Capacity: 60ltr
- Fuel Consumption: 2.7l/h 4.03l/h
- Dimensions: 107 x 70 x 98 cm (LxWxH)
- Weight: 69kgs
