TTW 25000 S Wind Machine Specifications

Specification	Value
Air flow rate	27,600 m ³ /h
Air current blowing out	Yes
Air current sucking in	No
Discharge distance outside	8 m
Discharge distance inside	N/A
Air pressure	160 Pa
Fan	axial
Stages	2
Transport medium temperature max.	40°C
Mains connection	230 V, 50 Hz
Power input	0.65 kW
Recommended preliminary fuse	16 A
Nominal current consumption	2.8 A
Electric connection plug	CEE 7/7
Sound level (Level 1)	65 dB(A)
Sound level (Level 2)	75 dB(A)
Dimensions length (packaging excluded)	525 mm
Dimensions width (packaging excluded)	1,060 mm
Dimensions height (packaging excluded)	1,140 mm

Weight	44 kg
