

Tornado Air Mover

3200 CFM

Specifications

Features	Tornado Air Mover	Specifications	Tornado Air Mover
High Air Volume	Y	Power Supply	220~240V/50HZ
Low AMP Draw	Y	Wattage	345 / 315 W
Lightweight	Y	Energy	185W / Hr
Easy Carry Handle	Y	Power Cord	1.00mm ²
Simple to Operate	Y	Power Cord Length	6 Metres
Cord Wrap In 4 Positions	Y	Blade Size	16.5" / 420mm
2 Speeds - ¼ HP	Y	Speed	1400 / 1200 RPM
Large Fan Impeller	Y	Air Volume (CFM)	3750 / 3200 CFM
Increased Efficiency	Y	Motor	Single Phase
High Density Polypropylene Housing	Y	Stackable Height	Up to 4 Units
Multi Floor Fan - 3 Positions	Y	Net Weight	14 Kgs
Easily Stackable	Y	Gross Weight	16 Kgs
Bracket Available For Mounting	Y	Measurement	550 x 365 x 560 mm
Suitable For Floor & Water Restoration	Y	Warranty	1 Year

Application

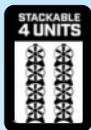

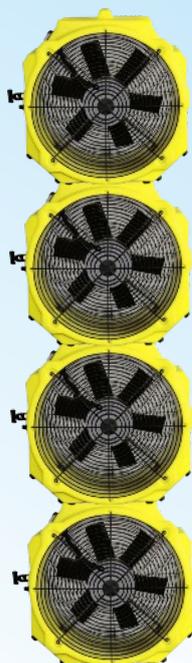

The Tornado Air Mover is the ideal choice for floor & carpet drying. It is also suitable for inflatables, janitorial, water restoration & many others. The Multi Floor fan keeps high air volume with low AMP draw. It is light weight with easy carry Handle, & functional cord wrap in 4 positions. It has 2 speeds with ¼ HP Sealed motors which means low temperature rise and long industrial use. It has a large fan Impeller that generates greater air flow for increasing efficiency. It has a bracket available for mounting & has High Density polypropylene housing for durability. The unit can be stacked up to 4 high during use, transportation & Storage.

Key Design Features

- Both Inlet and Outlet can be Ducted - Cooling, Ventilation, Extraction & Long Distance Work.
- Capable of Reducing Secondary Damage, Stemming from Side Effects of Trapped Humidity.
- Lightweight and Compact with High Density Polypropylene Housing for Durability.
- Stackable, with an Easy to Carry Handle and a Long Life 2 Speed Motor.
